

## ORIGINAL RESEARCH ARTICLES PUBLISHED IN PEER-REVIEWED JOURNALS

1. Sebastian A, McSherry E, Ueki I, Morris RC Jr:  
Renal amyloidosis, nephrotic syndrome, and impaired renal tubular reabsorption of bicarbonate.  
Ann Int Med 69:541-548, 1968
2. Sebastian A, McSherry E, Morris RC Jr:  
On the mechanism of renal potassium wasting in renal tubular acidosis associated with the Fanconi syndrome (Type 2 RTA).  
J Clin Invest 50:231-243, 1971
3. Morris RC Jr, McSherry E, Sebastian A:  
Modulation of experimental renal dysfunction of hereditary fructose intolerance by circulating parathyroid hormone.  
Proc Nat Acad Sci, USA 68:132-135, 1971
4. Sebastian A, McSherry E, Morris RC Jr:  
Renal potassium wasting in renal tubular acidosis: Its occurrence in types 1 and 2 RTA despite sustained correction of systemic acidosis.  
J Clin Invest 50:667-678, 1971
5. McSherry E, Sebastian A, Morris RC Jr:  
Renal tubular acidosis in infants: The several kinds, including bicarbonate-wasting, classic renal tubular acidosis.  
J Clin Invest 51:499-514, 1972
6. Short E, Morris RC Jr, Sebastian A, Spencer M:  
Exaggerated phosphaturic response to circulating parathyroid hormone in patients with familial x-linked hypophosphatemic rickets.  
J Clin Invest 58:152-163, 1976
7. Sebastian A, McSherry E, Morris RC Jr:  
Impaired renal conservation of sodium and chloride during sustained correction of systemic acidosis in patients with type 1, classic renal tubular acidosis.  
J Clin Invest 58:454-469, 1976
8. Hultner HN, Ilnicki LP, Harbottle JA, Sebastian A:  
Impaired renal H<sup>+</sup> secretion and NH<sub>3</sub> production in mineralocorticoid-deficient glucocorticoid-replete dogs.  
Am J Physiol 232:F136-F146, 1977
9. Sebastian A, Schambelan M, Lindenfeld S, Morris RC Jr:  
Amelioration of metabolic acidosis with fludrocortisone therapy in hyporeninemic hypoaldosteronism.  
N Engl J Med 297:576-583, 1977

10. Hulter HN, Sigala JF, Sebastian A:  
K<sup>+</sup> deprivation potentiates the renal alkalosis-producing effect of mineralocorticoid.  
Am J Physiol 235:F298-F309, 1978
11. Hulter HN, Ilnicki LP, Harbottle JA, Sebastian A:  
Correction of metabolic acidosis by the kidney during isometric expansion of extracellular fluid volume.  
J Lab Clin Med 92:602-612, 1978
12. Hulter HN, Licht JH, Sebastian A:  
K<sup>+</sup> deprivation potentiates the renal acid excretory effect of mineralocorticoid: Obliteration by amiloride.  
Am J Physiol 236:F48-F57, 1979
13. Hulter HN, Licht JH, Glynn RD, Sebastian A:  
Renal acidosis in mineralocorticoid deficiency is not dependent on NaCl depletion or hyperkalemia.  
Am J Physiol 236:F283-F294, 1979
14. Schambelan M, Sebastian A, Biglieri EG:  
Prevalence, pathogenesis, and functional significance of aldosterone deficiency in hyperkalemic patients with chronic renal insufficiency.  
Kidney Int 17:89-101, 1980
15. Hulter HN, Sebastian A, Sigala JF, Licht JH, Glynn RD, Schambelan M, Biglieri EG:  
Pathogenesis of renal hyperchloremic acidosis resulting from dietary potassium restriction in the dog: role of aldosterone.  
Am J Physiol 238:F79-F91, 1980
16. Hulter HN, Licht JH, Glynn RD, Sebastian A:  
Pathophysiology of chronic renal tubular acidosis induced by administration of amiloride.  
J Lab Clin Med 95:637-653, 1980
17. Hulter HN, Licht JH, Bonner EL Jr, Glynn RD, Sebastian A:  
Effects of glucocorticoid steroids on renal and systemic acid-base metabolism.  
Am J Physiol 239:F30-F43, 1980
18. Hulter HN, Glynn RD, Sebastian A:  
Renal and systemic acid-base effects of chronic dichloroacetate administration in dogs.  
Metabolism 29:997-1002, 1980

19. Sebastian A, Sutton JM, Hulter HN, Schambelan M, Poler SM:  
Effect of mineralocorticoid replacement therapy on renal acid-base homeostasis in adrenalectomized patients.  
Kidney Int 18:762-773, 1980
20. Schambelan M, Sebastian A, Rector FC Jr:  
Mineralocorticoid-resistant renal hyperkalemia without salt wasting (type II pseudohypoaldosteronism): Role of increased renal chloride reabsorption.  
Kidney Int 19:716-727, 1981
21. Hulter HN, Bonner EL Jr, Glynn RD, Sebastian A:  
Renal and systemic acid-base effects of chronic spironolactone administration.  
Am J Physiol 240:F381-F387, 1981
22. Hulter HN, Sigala JF, Sebastian A:  
Effects of dexamethasone on renal and systemic acid-base metabolism.  
Kidney Int 20:43-49, 1981
23. Hulter HN, Toto RD, Bonner EL Jr, Ilnicki LP, Sebastian A:  
Renal and systemic acid-base effects of chronic hypoparathyroidism in dogs.  
Am J Physiol 241:F495-F501, 1981
24. Hulter HN, Ilnicki LP, Licht JH, Sebastian A:  
On the mechanism of diminished urinary carbon dioxide tension caused by amiloride.  
Kidney Int 21:8-13, 1982
25. Jones JW, Sebastian A, Hulter HN, Schambelan M, Sutton JM, Biglieri EG:  
Systemic and renal acid-base effects of chronic dietary potassium depletion in humans.  
Kidney Int 21:402-410, 1982
26. Hulter HN, Sebastian A, Toto RD, Bonner EL Jr, Ilnicki LP:  
Renal and systemic acid-base effects of the chronic administration of hypercalcemia-producing agents: Calcitriol, PTH, and intravenous calcium.  
Kidney Int 21:445-458, 1982
27. Brenner RJ, Spring DB, Sebastian A, McSherry E, Genant HK, Palubinskas AJ, Morris RC Jr:  
Incidence of radiographically evident bone disease, nephrocalcinosis, and nephrolithiasis in various types of renal tubular acidosis.  
N Engl J Med 307:217-221, 1982

28. Hulter HN, Toto RD, Ilnicki LP, Sebastian A:  
Chronic hyperkalemic renal tubular acidosis induced by KCl loading.  
Am J Physiol 244:F255-F264, 1983
29. Hulter HN, Toto RD, Ilnicki LP, Halloran B, Sebastian A:  
Metabolic alkalosis in models of primary and secondary hyperparathyroid states.  
Am J Physiol 245:450-461, 1983
30. Kurtz I, Maher T, Hulter HN, Schambelan M, Sebastian A:  
Effect of diet on plasma acid-base composition in normal humans.  
Kidney Int 24:670-680, 1983
31. Toto RD, Hulter HN, Mackie S, Sebastian A:  
Renal tubular acidosis induced by dietary chloride.  
Kidney Int 25:26-32, 1984
32. Maher T, Schambelan M, Kurtz I, Hulter HN, Jones JW, Sebastian A:  
Amelioration of metabolic acidosis by dietary potassium restriction in hyperkalemic patients with chronic renal insufficiency.  
J Lab Clin Med 103:432-445, 1984
33. Hulter HN, Toto RD, Sebastian A, Mackie S, Cooke CR, Wilson, TE, Melby JC:  
Effect of extracellular fluid volume depletion on renal regulation of acid-base and potassium equilibrium during prolonged mineral acid administration.  
J Lab Clin Med 103:854-868, 1984
34. Sebastian A, Schambelan M, Sutton JM:  
Amelioration of hyperchloremic acidosis with furosemide therapy in patients with chronic renal insufficiency and type 4 renal tubular acidosis.  
Am J Nephrology 4:287-300, 1984
35. Berger BE, Cogan MG, Sebastian A:  
Reduced glomerular filtration and enhanced bicarbonate reabsorption maintain metabolic alkalosis in humans.  
Kidney Int 26:205-208, 1984
36. Hulter HN, Licht JH, Sebastian A:  
Effects of dietary potassium depletion and mineralocorticoid excess on renal Cl<sup>-</sup> conservation in the dog.  
Am J Physiol 248:F104-F112, 1985
37. Hernandez RE, Cogan MG, Schambelan M, Colman J, Morris RC Jr, Sebastian A:  
Dietary NaCl determines severity of potassium depletion-induced metabolic alkalosis.  
Kidney Int 31:1356-1367, 1987

38. Schambelan M, Sebastian A, Katuna BA, Arteaga E:  
Adrenocortical hormone secretory response to chronic NH<sub>4</sub>Cl-induced metabolic acidosis.  
Am J Physiol 252:E454-E460, 1987
39. Carneiro AV, Sebastian A, Cogan MG:  
Reduced glomerular filtration rate can maintain a rise in plasma bicarbonate concentration in humans.  
Am J Nephrol 7:450-454, 1987
40. Petri M, Bockerstedt L, Colman J, Whiting-O'Keefe Q, Sebastian A, Hellmann D:  
Serial assessment of glomerular filtration rate in lupus nephropathy.  
Kidney Int 34:832-839, 1988
41. Yarbrough S, Nix L, Katz R, Korn M, Sebastian A:  
Food chloride distribution in nature and its relation to sodium content.  
J Am Diet Assoc 88:472-475, 1988
42. Schambelan M, Sebastian A:  
Pathogenesis and pathophysiologic role of hypoaldosteronism in syndromes of renal hyperkalemia.  
Current Topics in Membrane and Transport 28:351-366, 1987
43. Sebastian A, Hernandez RE, Portale AA, Colman J, Tatsuno J, Morris RC Jr:  
Dietary potassium influences kidney maintenance of serum phosphorus concentration.  
Kidney Int 37:1341-1349, 1990
44. Don BR, Sebastian A, Cheitlin M, Christiansen M, Schambelan M:  
Pseudohyperkalemia caused by fist clenching during phlebotomy.  
N Engl J Med 322:1290-1292, 1990
45. Cogan MG, Carneiro AV, Tatsuno J, Colman J, Krapf R, Morris RC Jr, Sebastian A:  
Normal diet NaCl variation can affect the renal setpoint for plasma pH-HCO<sub>3</sub> maintenance.  
J Am Soc Nephrol 1:193-199, 1990
46. Moulinier L, Venet T, Schiller NB, Kurtz TW, Morris RC Jr, Sebastian A:  
Measurement of aortic blood flow by Doppler echocardiography: Day to day variability in normal subjects and applicability in clinical research.  
J Am Coll Cardiol 17:1326-1333, 1991

47. Siegel D, Hulley SB, Black DM, Cheitlin MD, Sebastian A, Seeley DG, Hearst N, Fine R:  
Diuretics, serum and intracellular electrolyte levels and ventricular arrhythmias in hypertensive men.  
JAMA 267(8):1083-1089, 1992  
JAMA (ed.esp.) 1:113-124, 1992
48. Hagiwara S, Lane N, Engelke K, Sebastian A, Kimme DB, Genant HK:  
Precision and accuracy for rat whole body and femur bone mineral determination with dual X-ray absorptiometry.  
Bone and Mineral 22:57-68, 1993
49. Sebastian A, Harris ST, Ottaway JH, Todd KM, Morris RC Jr:  
Improved mineral balance and skeletal metabolism in postmenopausal women treated with potassium bicarbonate.  
N Engl J Med 330:1776-1781, 1994
50. Kusumoto F, Venet T, Schiller NB, Sebastian A, Foster E:  
Measurement of aortic blood flow by Doppler Echocardiography:temporal, technician, and reader variability in normal subjects and the application of generalizability theory in clinical research.  
J Am Soc Echocardiol 8:647-653, 1995
51. Frassetto L, Sebastian, A:  
Age and systemic acid-base equilibrium: Analysis of published data.  
J Gerontol 51A:B91-B99, 1996
52. Frassetto LA, Morris RC Jr, Sebastian A:  
Effect of age on blood acid-base composition in adult humans. Role of age-related renal functional decline.  
Am J Physiol 271:F1114-F1122, 1996
53. Frassetto L, Morris RC Jr, Sebastian A:  
Potassium bicarbonate reduces urinary nitrogen excretion in postmenopausal women.  
J Clin Endocrinol Metab 82:254-259, 1997
54. Sudhir K, Forman A, Yi SL, Sorof J, Schmidlin O, Sebastian A, Morris RC Jr:  
Reduced dietary potassium reversibly enhances vasopressor response to stress in African-Americans.  
Hypertension 29:1083-1090, 1997
55. Frassetto LA, Todd KM, Morris RC Jr, Sebastian A:  
Estimation of net endogenous noncarbonic acid production in humans from diet potassium and protein content.  
Am J Clin Nutr 68:576-583, 1998

56. Schmidlin O, Forman A, Tanaka M, Sebastian A, Morris RC, Jr.:  
Salt induced renal vasoconstriction in salt sensitive African-Americans.  
Hypertension 33:633-639, 1999
57. Morris RC, Sebastian A, Forman A, Tanaka M, Schmidlin O:  
Normotensive salt-sensitivity: Effects of race and dietary potassium.  
Hypertension 33:18-23, 1999
58. Morris RC, Schmidlin O, Tanaka M, Forman A, Frassetto L, Sebastian A:  
Differing effects of supplemental KCl and KHCO<sub>3</sub>: pathophysiological and  
clinical implications.  
Seminars in Nephrology 19:487-493, 1999
59. Frassetto LA, Todd KT, Morris RC Jr, Sebastian A:  
Worldwide incidence of hip fracture in elderly women: Relation to  
consumption of animal and vegetable foods.  
J Geront Med Sci 55A:M585-M592, 2000.
60. Frassetto LA, Nash E, Morris RC Jr, Sebastian A:  
Comparative effects of potassium chloride and bicarbonate on thiazide-  
induced reduction in urinary calcium excretion.  
Kidney Intl 58:748-742, 2000
61. Sellmeyer DE, Stone KL, Sebastian A, Cummings, SR:  
A high ratio of dietary animal to vegetable protein increases the rate of  
bone loss and risk of fracture in postmenopausal women.  
Am J Clin Nutr 73:118-122, 2001
62. Frassetto LA, Morris RC Jr, Sellmeyer DE, Todd K, Sebastian A:  
Diet, evolution and aging – the pathophysiologic effects of the post-  
agricultural inversion of the potassium-to-sodium and base-to-chloride  
ratios in the human diet.  
Eur J Nutr 40:200-213, 2001
63. Sellmeyer DE, Schloetter M, Sebastian A:  
Potassium citrate prevents increased urine calcium excretion and bone  
resorption induced by a high sodium chloride diet.  
J Clin Endocrinol Metab 87:2008-2012, 2002
64. Sebastian A, Frassetto LA, Sellmeyer DE, Merriam RL, Morris RC Jr  
Estimation of the net acid load of the diet of ancestral pre-agricultural  
*Homo sapiens* and their hominid ancestors.  
Am J Clin Nutr 2002;76:1308-16.
