

## BOOK CHAPTERS

1. Sebastian A, McSherry E, Morris RC Jr:  
Metabolic acidosis with special reference to the renal acidoses.  
The Kidney, edited by Brenner BM, Rector FC Jr. WB Saunders Company, Philadelphia, Chapter 16, 1976
2. Morris RC Jr, McInnes RR, Epstein CJ, Sebastian A, Schriver CR:  
Genetic and metabolic injury of the kidney.  
The Kidney, edited by Brenner BM, Rector FC Jr. WB Saunders Company, Philadelphia, Chapter 27, 1976
3. Schambelan M, Sebastian A:  
Hyporeninemic hypoaldosteronism.  
Advances in Internal Medicine, edited by Siperstein MH. Year Book Medical Publishers, Chicago, Vol 24, 1978
4. Schambelan M, Sebastian A, Hulter HN:  
Mineralocorticoid excess and deficiency syndromes.  
Contemporary Issues in Nephrology, edited by Stein JH, Brenner BM. Churchill Livingstone, NY, Vol II, 1978
5. Sebastian A, Hulter HN, Rector FC Jr:  
Metabolic alkalosis.  
Contemporary Issues in Nephrology, edited by Stein JH, Brenner BM. Churchill Livingstone, NY, Vol II, 1978
6. Sebastian A, Hulter HN, Schambelan M:  
Renal hyperchloremic acidosis with hyperkalemia. Type 4 renal tubular acidosis (RTA).  
Proceedings, VIIth International Congress of Nephrology, edited by Barcelo R, Bergeron M, Carriere S, Dirks JH, Drummond K, Guttman RD, Lemieux G, Mongeau J-G, Seely JF. S. Karger, Montreal, 1978
7. Sebastian A, Morris RC Jr:  
Renal tubular acidosis.  
Strauss and Welt's Diseases of the Kidney, edited by Early LE, Gottschalk CG. Little, Brown and Company, Boston, Vol II, 1979
8. Morris RC Jr, Sebastian A:  
Disorders of the renal tubule that cause disorders of fluid, acid-base, and electrolyte metabolism.  
Clinical Disorders of Fluid and Electrolyte Metabolism, edited by Maxwell MH, Kleeman CR. McGraw-Hill Book Company, NY, 1979
9. Gonick HC, Fraser D, Sebastian A:  
Renal tubular disorders.  
Current Nephrology, edited by Gonick HC. Houghton Mifflin Professional Pub, Boston, 1979
10. Morris RC Jr, Sebastian A:  
Renal tubular acidosis and Fanconi's syndrome.  
Metabolic Basis of Inherited Disease, edited by Stanbury JB Wyngaarden JB, Fredrickson DS. McGraw-Hill, NY. 1983

11. Cogan MG, Liu F-Y, Berger BE, Sebastian A, Rector FC Jr:  
Metabolic alkalosis.  
Med Clin N Amer, edited by Kurtzman NA, Batlle DC. WB Saunders, Philadelphia. 1983
12. Sebastian A, Schambelan M, Hulter HN, Kurtz I, Hernandez RE, Biglieri EG, Morris RC Jr:  
Acid-base and electrolyte disorders associated with adrenal disease.  
Fluid, Electrolyte and Acid-Base Disorders, edited by Arieff A, DeFronzo R. Churchill Livingstone, NY. 1985
13. Schambelan M, Sebastian A:  
Hypoaldosteronism.  
Current Therapy in Endocrinology and Metabolism, edited by Bardin CW, Krieger DT. BC Decker, Philadelphia. 1985
14. Sebastian A, Schambelan M, Hulter HN, Maher T, Kurtz I, Biglieri EG, Rector FC Jr, Morris RC Jr:  
Hyperkalemic renal tubular acidosis.  
Renal Tubular Disorders, edited by Buckalew V, Gonick H. Marcel Decker Publishers, NY. 1985
15. Frassetto, LA, R. Morris, and A. Sebastian.  
The natural dietary potassium intake of humans: The effect of diet-induced potassium-replete, chloride-sufficient, chronic low-grade metabolic alkalosis, or stone age diets for the 21st Century.  
Nutritional Aspects of Osteoporosis, 2nd Ed., edited by P. Burkhardt, B. Dawson-Hughes, and R. P. Heaney, Amsterdam: Elsevier/Academic Press, 2004, p. 349-365.
16. Frassetto, L.A., C. Morris, and A. Sebastian.  
Effects of diet acid load on bone health.  
Nutritional Aspects of Osteoporosis, 2nd Edition, edited by P. Burkhardt, B. Dawson-Hughes, and R. P. Heaney, Amsterdam: Elsevier/Academic Press, 2004, p. 273-295.
17. Sebastian A, Hernandez RE, Schambelan M:  
Disorders of renal handling of potassium.  
The Kidney, edited by Brenner BM, Rector FC Jr. WB Saunders Company, Philadelphia. 1986
18. Schambelan M, Sebastian A:  
Adrenal Gland.  
Cecil Essentials of Medicine, edited by Andreoli TE, Carpenter CCJ, Plum F, Smith LH Jr. WB Saunders Company, Philadelphia. 1986
19. Bastl C, Sebastian A:  
Adrenal hormones.  
Clinical Disorders of Fluid and Electrolyte Metabolism, edited by Maxwell MH, Kleeman CR, Narins RG. McGraw-Hill Book Co, NY. 1987

20. Schambelan M, Sebastian A:  
States of aldosterone deficiency or pseudodeficiency.  
Hormone Resistance and Other Endocrine Paradoxes, edited by Cohen M, Foa P. Springer-Verlag, NY 1987
21. Morris RC Jr, Sebastian A:  
Potassium-responsive hypertension.  
Hypertension: Pathophysiology, Diagnosis, and Management, 2nd Ed., edited by Laragh JH and Brenner BM. Raven Press Ltd, NY 1995
22. Frassetto LA, Morris RC Jr, Todd KT, Sebastian A.:  
Chronic low-grade metabolic acidosis in normal adult humans: Pathophysiology and consequences women's health and menopause.  
Women's Health and Menopause, edited by Paoletti R, Crosignani P, Kenemans N, Jackson A Kluwer Academic. 1999, p. 15-23
23. Morris RC Jr, Frassetto LA, Schmidlin, O, Forman A, Sebastian A:  
Expression of osteoporosis as determined by diet-disordered electrolyte and acid-base metabolism.  
Nutritional Aspects of Osteoporosis, edited by Burckhardt P, et al., Academic Press, San Diego, 2001, p. 357-378
24. Sebastian A, Frassetto LA, Sellmeyer DE, Morris RC Jr:  
An evolutionary perspective on the acid-base effects of diet:  
Acid-Base Disorders and Their Treatment, Gennari, J, et al., eds., Marcel Dekker, Inc., 2005
25. Sebastian A, Frassetto LA, Morris RC Jr:  
The Acid-Base Effects Of The Contemporary Western Diet: An Evolutionary Perspective  
The Kidney: Physiology and Pathophysiology, 4th Edition,  
edited by Drs. Robert J. Alpern and Steven C. Hebert, Elsevier [In Press] 2007
26. Eaton SB, Cordain L, Sebastian A.:  
The Ancestral Biomedical Environment  
Aird W.C, Ed. Endothelial Biomedicine. Cambridge: Cambridge University Press, 2007 (ISBN 9780521853767).
